

Mexico

Luisa Falcon &
Jose F. García Mazcorro

- Continue to work with the local community to monitor water quality
- Hosted local workshops focused on microbial ecology of microbialites
- ISME LA helped us strengthen bonds between different microbial ecology researchers in the region and work jointly on the SARS-CoV-2 pandemic.
- Proposal for “Microbial Ecology of Coronavirus in LA”
- 3 Symposia related to rumen microbial ecology & beef cattle management

Thank you to the **International Society for Microbial Ecology** for helping us bring **Dr. Suzanne Ishaq** from Maine University to the **XXII UANL Symposium “Cattle fattening in corral”**

October 1-2, 2019. Monterrey, México
